

BELT ALIGNMENT ROLLER

Eagle Commander

Eagle Commander is designed to persuade your belt to track on center of your conveyor rollers. As the belt starts to track off to one side the Eagle Commander roller cams to lift the belt up on that side to persuade the belt back on center.

Belt Alignment Roller 18-72" Belt Width

Features and Benefits

- ✦ Heavy duty steel construction
- ✦ High load capacity heavy duty sealed bearings
- ✦ Adjustable mounting brackets
- ✦ Urethane covered roller for superior grip and long life
- ✦ All powder coated metal components
- ✦ Easy installation and maintenance friendly
