

EAGLE STEP LINER PANELS

Modular Chute Wear Liners

Eagle Armor

Step Liner panels are molded urethane with Carbide and Ceramic particles for direct impact of materials. The Carbide and Ceramic gives you a superior wear surface. The particles are homogeneously mixed with abrasion resistant urethane that also results in impact absorption along with sound and vibration dampening. The steps in the panel are designed to catch a thin layer of material that aids as the primary wear surface that increases the life of the panel.

*Note: We offer custom sizes upon request.
We ask that you supply a sketch or a drawing.*

BOLT DOWN MOUNTING FOR STEP LINER PANELS

BOLT DOWN (expanded metal backing)

1-1/2" Overall thickness Eagle Step Liner Panel

Size	Item Number
12X12	ESLP-15-1212-BD
12X18	ESLP-15-1218-BD
12X24	ESLP-15-1224-BD
18X18	ESLP-15-1818-BD

2" Overall thickness Eagle Step Liner Panel

Size	Item Number
12X12	ESLP-20-1212-BD
12X18	ESLP-20-1218-BD
12X24	ESLP-20-1224-BD
18X18	ESLP-20-1818-BD
