EPGSMA-B	19LBS

EZ Post with Guard Swivel Mount for Weld On

EZ POST WELD ON	WEIGHT
EPGSMA-W	16LBS

SNAPFLEX

Our SnapFlex is designed to contain product consistently without adding pressure to your belt. Because of the way it seals without force, even if your belt starts walking, there is no worry that your skirting will walk off the belt. When installed with the custom channel options, there will be no need to adjust for the life of the skirting.

SnapFlex is the no-worry skirtboard.

- Chute too wide? *No problem.*
- Belt walking excessively? *No problem.*
- Limited chute space? *No problem.*
- No more clamps.
- No more adjustment.

No more worries.

SNAPFLEX HEIGHT	10' LENGTH	25' LENGTH	50' LENGTH
